OFFICIALS HAVE THE SITUATION IN HAND

Reports Claim They Are Gaining a Victory Over Fever.

PLAGUE YIELDING TO SCIENCE

Texas and Louisiana Towns Continue To Quarantine Against the Crescent City—Health Authorities Believe They Have Fever Under Control.

New Orleans, La., August 2.—Little change characterized the yellow fever situation today. Of the five new foci mentioned in the official report of the state board of health in the preceding 24 hours, only three are above Canal street, in widely separated districts and are traceable to the original zone of infection.

Today's reports of convalescents is especially encouraging and it is becoming evident that with careful treatment the present visitation of the fever will be shorn of many of its terrors.

Reports from the bedsides of those other than Italians were to the effect that the disease was steadily yielding to treatment.

The announcement by Dr. Tabor of quarantine against the whole state of Louisiana promises to again throw traffic on the west side of the river out of joint. Under this order no one can enter the state of Texas coming from this city without first having gone into a camp of detention for six days. The effect will be to prevent practically all passenger traffic hence to Texas. The hope here is that Dr. Tabor will not still further extend his restrictions so as to include freight.

Thousands of circulars are to be sent through the south by the business men of New Orleans containing an emphatic declaration by Dr. J. H. White, of the Marine hospital service that freight cannot carry yellow fever infection. Dr. White has written the letter to President Kohnke, of the board of trade. Dr. White says:

"There is no possible way in which yellow fever may be transmitted other than by the mosquito and freight cannot under any circumstances be infected in this way, but only in so far as it might become the residence of an infected mosquito, much less the infected mosquito, whose presence in business and manufacturing establishments would, in the nature of things, be a very remote contingency.

Captain Frederick Singer, of the New Orleans naval station has no apprehension of a case of fever on the reservation. Last June he oiled all cisterns and pools, screened all the quarters and practically wiped out all mosquitoes.

Rev. Dr. Beverly Warner has called attention to the fact that his agents are meeting with some opposition on the part of householders to oiling and screening. It is proposed to make public the names of all who refuse to fall in line with the campaign against the mosquito.

A number of tenders of assistance from nurses and doctors in other parts of the country have been received but while acknowledging the spirit in which these offers are made the authorities announce that there is not yet enough sickness to keep the present nurses and doctors employed. A large number of physicians here have not had a single case of yellow fever in their practice.

The Italians who formed a permanent organization on Sunday have opened headquarters in the heart of the originally infected district ad are already investigating and fulfilling request sfor relief. Immunes have been appointed to visit the stricken district and report the number of sick and the number in distress.

Three new cases and one death from fever were reported up to noon today.

The state board of health has issued a proclamation to all municipal and parish boards to recognize health officials of the marine hospital service and not to quarantine freight as express matter.

Released from Quarantine.

New York, August 2.—[illegible]

all suspicion that yellow fever exists among persons under detention who have been taken off steamers from southern ports in the past few days was removed today when Health Officer Doty announced that all but two of his suspects could be closed today. Barring possibly new cases found on incoming steamers, the situation is better today than at any other time in the last five days.

Seven first cabin passengers taken off the steamer Proteus from New Orleans were released today. The health officer announced also that five men taken from the freight steamer El Sud yesterday and seven members of the Serguranca crew who were taken to the detention hospital ill last Saturday, will be freed today.

Situation at the Canal.

Washington, August 2.—The Panama canal commission today received a cablegram from Governor Magon reporting that G. H. Skinner, an American employee at Cristobal and Harry Whitingham, an American, non-employe, at Panama, have been stricken with yellow fever.

THREE SENTENCED TO HANG.

Father and Two Sons Must Die on Gallows for Murder.

Valdosta, August 2.—Judge R. G. Mitchell passed sentences on J. G. Rawlings and his three sons, Milton, Jesse and Leonard. The scene was one of the most touching and dramatic ever witnessed in a court in this city.

The first three were sentenced to be hanged September 15, an dLeonard was sentenced to life imprisonment.

When th eelder Rawlings was asked if he had anything to say why sentence should not be passed upon him, he arose and said: "I have a conscience that stands correct. You can no more pluck it than you can the brightness of the sun. Your sentence can do no more than kill. Pass it."

Milto received the sentence stoically and never opened his mouth. Jesse and Leonard burst into tears, and both of them said "I am innocent."

Mrs. Rawlings and her two daughters were present, and on them the blow fell with crushing force, all of the mweeping bitterly.

NEW ANGLO-JAPANESE TREATY.

Great Britain Hopes that an Alliance Con Be Formed Soon.

London, August 2.—Considerable progress is being made with the new Anglo-Japanese treaty alliance, which the foreign office hopes will be concluded at an early date. Some of the details have not yet been fully settled, but it can be definitely stated that the terms will be more comprehensive than those governing the present alliance. The treaty will be promulgated as soon as completed, there being a desire on the part of the British government to make its publication dependent on the conclusio of peace.

As to the suggestion that Great Britain should advise Japan to be lenient, the Associated Press hears that the British government's presumptions are that its advice will be asked by Japan in the course of the peace negotiations, and that it will then gladly offer what counsed may seem to it best calculated to assure a permanent peace.

Kaiser's Visit Only Courtesy.

Copenhagen, August 2.—It is officially announced that Emperor William's visit is devoid of special significance, that it is solely one of courtesy to King Chirstian, and that no conferences of a political nature will be held during his mayesty's stay in Copenhagen. Emperor William will bed farewell to King Christian tomorrow afternoon after lunch on the Hohenzollern. He expects to sail for Schwinemunde the same evening.

Two Deaths on Steamship.

New York, August 2—Two deaths and one burial at sea among passengers of the North German Lloyd steamship Bremen were reported when the liner arrived here today. Mrs. Dollie Edmonson Vedder, aged 61 years, a first cabin passenger and widow of Captain O. O. Vedder, United States army, died July 27. Her body was brought to port. A child died in the steerage and was buried at sea.

TELEGRAPHERS GO OUT ON A STRIKE

The Men Claim That They Were Forced to Quit.

STRIKERS ARE STANDING FIRM

An Increase in Wages Was Wanted by Men, But Company Refused to Grant the Raise, and Discharged Those Who Would Not Accept.

St. Paul, August 2.—Differences between the telegraphers employed on the Great Northern company and their employers reached a climax today when nearly all the operators on the Wilmar, Fergus Falls and Breckenridge divisions quit work.

The men claim it is a lockout on the part of the road because they will not accept the terms offered. The company claims it is because the men are not satisfied. A circular to its employes the company proposes a schedule of wages which is claimed give an increases to the men amounting to $20,000 annually. The men, on the other hand, assert that the increase amounts to only $7,000 or $8,000 annually for about a thousand men.

The employes were asked in the circular to decide whehter they wished to continue in the company's service and be governed by its new rules and regulations. When the men refused to accept this proposition they claim that they were at once discharged.

President Perham, of the Railway Telegraphers' union, said today:

"But one man has failed us. Elsewhere they have gone out uniformly. The superintendents have not called on operators or agents in the Twin Cities or any large stations. I want to make it clear that this is not a strike, but it is a lockout."

SCOTLAND YARD IN CHICAGO.

New Departure is Contemplated By Chicago's Chief of Police.

Chicago, Ill., August 2.—Chicago will soon have its own Scotland yard.

Chief of Police John M. Collins announces that in a few days he will establish a murder bureau under the tutelage of Assistant Chief Schumler. The assistant chief will have on his special staff eight of the best detectives in the city and will work in harmony with the state's attorney's office.

One object of the innovation is the gathering and holding of evidence. As soon as a murder or any other big crime is committed, the runners from Schuettler's office will go to the scene with a photographer or an artist or draftsman. Every bit of tangible evidence will be picked up, labeled and used by the detectives in working up the case and in its prosecution in the criminal court.

The plan is in practice in Berlin, London and New York.

Finds His Boy in Penitentiary.

Jefferson City, Mo., August 2.—After a long and unsuccessful search for their son, Roy Courtwright, a prosperous blacksmith of Kansas City, and his wife believed their son had been kidnaped until following a last chance urged by his wife, Mr. Courtwright today applied at the pentitentiary and his son serving a term of two years. The boy had been convicted of stealing four sweaters at Springfield, Mo., and was sent to the penitentiary in October, 1904. At that time, in order to protect the good name of his parents, he had said they were dead. He left home suddenly to see the world and no tidings regarding him had ever been received by his parents. Efforts will be made to secure a pardon for the boy.

To Control Insurance Companies.

Chicago, August 2.—Government legislation to control the life insurance companies is sought by the Iroquois club of Chicago. The plan outlined is to take the subject up at Washington and prepare bills for congress. It is proposed to invite the co-operation of other clubs without respect to political affiliation.

MOODY AT SAGAMORE HILL.

President Roosevelt Receives the Attorney General at His Home.

Oyster Bay, L. I., August 2.—Attorney General W. H. Moody arrived here today somewhat unexpectedly. He was to have come to Oyster Bay this evening to pass the night at Sagamore Hill, but as he came up Long Island sound on the dispatch boat Dolphin, he concluded to land here rather than go to New York for the day.

The attorney general has been cruising for a week along the north Atlantic coast in the Dolphin. After he was landed here the Dolphin proceeded to the New York navy yard, where she will be fitted out for the use of the Japanese envoys. They will make the trip from Oyster Bay to Portsmouth, N. H., in the vessel.

Attorney General Moody drove out to Sagamore Hill. His mission here at this time is to consider with the president the cases that have been turned over to the department of justice from the agricultural department.

Inquiries are now being made by the attorney general into the scandals developed by the leak in the cotton crop report and the case of Dr. Geo. T. Moore who resigned because of his connection with a nitro-culture company.

The attorney general expects to go from Oyster Bay to Washington. He may leave tonight or he may conclude to remain at Sagamore Hill until tomorrow morning.

WILL FIGHT CARBON TRUST.

Rockefeller Said To Be Backing an Independent Concern.

Cleveland, O., August 2.—The Plain Dealer says today that the National Carbon company, known as the Carbon trust, soon will have a competitor with immense financial backing. It has developed here that Rockefeller interests are behind the United States Carbon company, which soon will be financed with a capitalization close to $1,000,000.

For more than a year the local concern has been closed down. About a month ago, however, the property was bought up by the East Ohio Gas company a Rockefeller corporation. The plant is being overhauled and will be turning out carbon products by Sept. 1. Burton Foster, manager of the company, said that in addition to the plant here, branches will be established in the natural gas belts of Ohio and Indiana. The organization will be built rapidly to complete the National company.

Mr. Foster said the company will be maintained as an independent institution regardless of its backing and will have the distinction of being the only independent carbon company on America soil.

Failures Cause Panic In Paris.

New York, August 2.—There was a panic yesterday on the boerse de commerce caused by the announcement that the two leading firms had suspended, says a Herald dispatch from Paris. As already sabled, the failures were due to the failure of a well known speculator merchant, and member of the chamber of the deputies to meet his engagements. For a short time it was hoped that an arrangement would be made which would prevent a crash on the exchange, but this optimism proved unfounded, and the disorder to such a point that no quotations for sugar could be given at the end of the market. The immediate cause of the speculator's discomfiture is found in Saturday's quotation for sugar, namely 28f 12c a bag. At the beginning of the year the prices ruled at 45f to 46f.

French Steamers for Mobile.

Mobile, Ala., August 2.—Many efforts of the promoter, George A. Riviere, the French consul at this port, Mobile has secured a French line of steamers, the first to come to this port. According to th eannouncement the line will inangurate the service with three steamers with American charter and subsidized by the French government. The service starts in the early part of November with steamers to Havre direct. Later Bordeaux is to be included in the schedule of sailings. The new enterprise will begin business under the most flattering auspices.

NEW TREATY FOR AMERICA AND CHINA

Text of the Proposed Document Made Known

TO EXCLUDE CHINESE LABORERS

All Disagreements Arising from Interpretations Shall Be Referred to Arbitrators—Uncle Sam Is Now Considering New Treaty.

Seattle, Wash., August 2.—The Post Intelligencer today publishes a text of the proposed new treaty on the immigration question as set forth by the Chinese government. The draft is under consideration by this government, being a substitute for the last treaty between the United States. After date of signing the treaty laborers of both countries shall be excluded from the other, laborers being miners, lumbermen, washermen, fishers who sell ordinary fish for local trade. Americans or Chinese not laborers are not within the restriction. The treaty is not retroactive, provisions being made for laborers to return to their native countries, certificates being furnished Chinese laborers for countries other than America shall have the right to pass through the United States subject to the regulations of the nation. American possessions being different from America proper, Chinese laborers may be admitted into the Hawaiian islands and Philippines as subjects of certain nations.

Chinese subjects other than laborers shall be admitted into the and permitted to reside in this country provided that certificates are furnished them.

All Chinese subjects who wish to enter America having proper credentials, shall not be detained or molested. When officials desire to inquire into the rights granted to Chinese subjects admitting them into America or rights of treaty, said subjects shall be allowed to secure for themselves representatives. The right to appeal from the ruling of the officials is granted. Where Chinese have no authority to enter, the officials have power to grant entrance or passage through the country. Chinese in America shall be arrested without a warrant.

Chinese excepting laborers, permanent or transient, shall have privilege of bringing families to this country if they present proper certificates. Chinese cannot become citizens. The United States and China have the right to register Americans and Chinese in respective counties. Disagreements in interpretations of treaty are to be referred to The Hague or arbitrators elected by sanction of both countries. The treaty is to be effective ten years and notice is necessary to abrogate.

Employe Admits Robbery.

Palatka, Fla., August 2—John T. Graves, an employe of the Southern Express company, who claimed he was gagged and tied on the morning of the 29th of July about 3 o'clock and the safe robbed of about $2,000, as previously published, confessed Monday afternoon to having committed the theft and gave up the money, which amounted to $1,535.10. He first hid the money i nan incubator in hos room in the express office. Later in the day he removed it to the unbolted, secreting it in an ice box. He was arraigned before Justice Reams and was held on $2,500 bail, in default of which he was sent to jail to await action of the criminal court.

Engineer Killed In Wreck.

Bainbridge, Ga., August 2. A collision occurred here on the Atlantic Coast Line on the high embankment approaching Flint river bridge about a quarter of a mile west of the depot, between an extra freight train going west, and the rear end of a string of cars being backed out by a switch engine. Engineer [illegible] of the freight train, was instantly killed, and Ed Underwood a negro brakeman of the freight train was so badly hurt that he died a short time afterwards. No one else on either train was hurt. The fireman jumped in time to save his life.

ALACHUA WILL SHOW FINE LIVE STOCK

At the Florida State Fair to be Held in Tampa in November.

PRIZE WINNERS TO BE THERE

Manager Callison of Spring Park Farm Will Take Two Carloads of Hereford and Jersey Stock, and Berkshire Hogs—Interest in Fair Increases.

N. A. Callison, manager of the Spring Park Farm at Bennington, is determined to show the people of the world what Alachua county is capable of doing in stock raising, and will have on exhibition at the State Fair, which will convene in Tampa in November, two carloads of Hereford and Jersey cattle, and Berkshire hogs. Several head of this stock are already prize winners, having been awarded prizes at the World's Fair, St. Louis, and at various State fairs. There is little doubt but that they will walk off with the honors at Tampa.

Interest seems to be increasing in the State Fair in this county. As has already been said, Alachua county, being one of the richest and most diversified in the State, should come first not only alphabetically, but in a "show-down" at Tampa, and it is believed that we will capture at least one of the six prizes for county exhibits.

There are several of the most prominent residents of the various sections who have the interests of the county at heart, and they have promised Jesse E. Burtz, who is representing the State Fair Association in the capacity of vice-president, that they would exercise every effort to make the Alachua county exhibit a success. Among these are Dr. J. B. Curtis of Orange Heights, F. P. Henderson of Arno, LeRoy N. Pearce of Alachua, F. P. and Perry G. Ramsey of Wacahoota, and many other leading citizens, business men, planters and horticulturists.

The people of Alachua county should come together in this move, for it will afford the best opportunity to present before the world the advantages offered here from every standpoint. The Florida State Fair for 1905 will be the largest ever attempted in the South, and it should be a county as well as a State pride.

YELLOW FEVER NOTES.

Where the Disease is Located in the Various States.

Lumberton, Miss., has made a desperate effort to check the plague.

There is one case at Montgomery, Ala. The patient was taken sick July 28, at a hotel.

Victor Vitello, the West Tampa yellow fever patient, is reported to be steadily improving.

Mississippi has placed a quarantine on fruit, and no more will be allowed to come within certain limits.

Close watch is kept along the Gulf ports. A small craft carrying Italians was signaled near Key West, and it was thought they might be refugees.

Fourteen new cases and two deaths reported at New Orleans yesterday.

Dr. Porter has issued an order to quarantine against Atlanta. This will be very satisfactory to the people of this State, as Atlanta permits people from New Orleans to enter that city without asking any questions.

They Appeal to Our Sympathies.

The bilious and dyspeptic are constant sufferers and appeal to our sympathies. There is not one of them, however, who may not be brought back to health and happiness by the use of Chamberlain's Stomach and Liver Tablets. These tablets invigorate the stomach and liver and strengthen the digestion. They also regulate the bowels. For sale by all druggists.

Safe at Home.

A card from G. W. Brumley, who, with his wife, left this city a few days ago for a visit to his old home in Princess Anne, Md., requests that The Sun be sent to his address, and states that he and his estimable wife reached their destination in due time, and are enjoying themselves. While friends here wish them a good time, they will nevertheless be glad when the season arrives for their return.

TRAXLER NEWS.

Narrow Escape From Death—Other Local Happenings.

Traxler, Aug. 2.—The crops are fine. We are in hopes of being better off another year.

Mr. Bush, while cow hunting near Dutton last Sunday, came very near losing his life, the ground giving way and his horse going down about fifteen feet. While trying to dig the horse out he was covered with dirt to his shoulders. Maybe he won't cow hunt any more soon, as that was his only horse.

Miss Mattie Miller of Edgefield, S. C., and Mrs. Joel Jennings visited the family of F. B. Dell last week.

Mrs. Joe Downing was a pleasant visitor to our thriving little burg yesterday.

Misses Ella Downing and Lizzie Bunch left Wednesday for Kissimmee, where they will teach school for the next six months. Though we regret their not being with us, we wish them much success.

Miss Kate Dell attended a Baptist union meeting at Eliam yesterday.

A party of young people from here spent a very pleasant day at Honesty Springs last Tuesday.

Public is Aroused.

The public is aroused to a knowledge of the curative merits of that great medicinal tonic, Electric Bitters, for sick stomach, liver and kidneys. Mary H. Walters of 546 St. Clair Ave., Columbus, O., writes: "For several months I was given up to die. I had fever and ague, my nerves were wrecked; I could not sleep, and my stomach was so weak, from useless doctors' drugs, that I could not eat. Soon after beginning to take Electric Bitters, I obtained relief, and in a short time I was entirely cured." Guaranteed at all drug stores; price 50c.

Have Gone to Work.

The construction "gang" of the Southern Bell Telephone and Telegraph Company have begun work, and for the next few days will be engaged in replacing the old poles and improving the local service. As soon as this is completed it is expected that the poles will have been distributed, and work will begin on the long distance line to Jacksonville.

The poles being used in the city are twenty-five feet in heighth, and are cypress. The same dimension with the exception of the length will be used on the long-distance service, the poles on this service being a few feet longer.

Manager Goodwin of the Southern Bell, Wednesday, stated that it is the purpose of his company to furnish to the people of Gainesville as good local service as can be found in the United States. The service is now good, but will be improved all that it is possible to improve it.

Herbine

Renders the bile more fluid and thus helps the blood to flow; it affords prompt relief from biliousness, indigestion, sick and nervous headaches, and over indulgence in food and drink. G. L. Caldwell, agent M. K. & T. R. R., Checotah, Ind. Ter., writes, April 18, 1903: "I was sick for over two years with enlargement of the liver and spleen. The doctors did me no good, and I had given up all hope of being cured, when my druggist advised me to use Herbine. It has made me sound and well." 50c. Sold by W. M. Johnson.

CEDAR KEY FOLKS ARE NOT WORRIED

Confident That They Will Retain Possession of Property There.

AN ATTORNEY'S PREDICAMENT

Correspondent States That Property Owner Showed Him an Abstract of Title and Warranty Deed Signed by One of Attorneys as Being Correct.

Cedar Key, Aug. 2.—The suit to quiet title brought by W. W. Hampton and W. E. Baker of Gainesville against the Cedar Key Town Company, L. B. Parsons and J. A. Williams, and which is said to involve the entire town of Cedar Key, is not causing very much excitement or worry among the people here who are interested in the suit as defendants, or as property owners who are to be sued later.

At the proper time the defendants will show that they and their grantors have held this property for upwards of thirty-five years under color of title and will produce certain proofs and documents to show that Parsons, the original locator, is the ancestor of L. B. Parsons, who now owns a considerable slice of the town, and the Cedar Key Town Company will show that its promoter, the late Senator David L. Yulee, one of the best posted real estate lawyers of his day, secured certain lands from the Parsons'.

Living witnesses will be produced who knew the original Parsons and the first settlers of Cedar Key, and who will testify that no one of the name of Pierson ever located here under the armed occupation act.

The writer was shown an abstract of title to certain property here to which is attached a certificate signed by one of the above attorneys, some years ago, and in which he certifies that the title to the property was good; also a warranty deed signed by this attorney, to a part of the property, he certified as being good and which he now seeks to overthrow. The owner of the property is wondering if the aforesaid attorney will make good his warranty and stand to his certificate, if he is successful in the present litigation.

UNION CARPENTERS ARE ON STRIKE

They Want a Nine-Hour Day on Same Pay as Heretofore.

THEY ARE PAID POOR WAGES

So They Claim, in Comparison to Other Points, and Are Determined to Gain Their Point or Seek Occupation in Other Cities.

According to promise, the carpenters and joiners of this city have gone out on a strike.

The mechanics in this line warned their employers long ago that they would go on strike August 1, if the work hours were not reduced from ten to nine at the same pay. The employers paid no heed to this warning, with the result that a general strike among the union carpenters went into effect on the morning of the 1st.

The carpenters claim that they are the poorest paid of any in the State, considering the time they are required to work, and are determined to get in fewer hours by one on the same salaries they have been drawing.

A good carpenter, it is said, is paid from $1.75 to $2 a day here, for ten hours' work, when he should receive, according to the scale elsewhere, from $2 to $2.50 for the same service. The carpenters say they are tired of this discrimination, and will get the salary they are worth or hunt some other locality.

This does not apply only to contractors, but to all who are employing carpenters in the city. Many houses are being erected on what is known as day labor, the owners of the building employing carpenters on the work. These carpenters also went out on a strike, and say they will not return to work until the concession of nine hours is granted.

Two or three contractors in the city are having no trouble as they voluntarily reduced the time to nine hours several weeks ago. The men employed by these contractors are working right along, and no trouble is anticipated in this direction.

The strike coming just at a time when building is brisk in Gainesville, may work a hardship on contractors if the matter is not settled.

A ROUND ROBIN.

Business Men Demand Restoration of 35,000 Votes.

The Sun has received a communication from twelve of the business men interested in the merchants' library contest in which they "request, and demand, that the 35,000 votes cast for the Odd Fellows' Home during the week ending July 22d, 1905, (on the sale of real estate) and which were eliminated (by instruction of the party who contracted with the merchants) in your issue of July 30th, 1905, be restored in your next issue and continued during the balance of the contest, and we agree to abide by the decision of the committee selected to canvass the votes at close of the contest, as to their legality."

The words in brackets in the above paragraph are ours. This matter has been fully explained in a letter from Mr. A. O. Johnson, who arranged the contest, showing that if the real estate privilege had been purchased the greatest number of votes allowed to be cast on any one real estate deal is 1,000. He claims, however, that no real estate privilege was purchased, and instructed The Sun to eliminate the votes, which was done, and they will not be restored without instructions to do so from him. We received our original instructions from him, and we do not propose to take instructions from anyone else. The Sun never sought the job it has on its hands in this affair and will gladly surrender it to anyone Mr. Johnson may designate. We do not care the "snap of a finger" what organization wins the library, but as long as we fill the position assigned us we propose to be guided by Mr. Johnson's instructions.

The twelve protestants can reach A. O. Johnson (to whom they should have sent their "Round Robin") by addressing him at Hot Springs, Arkansas, care general delivery.

Peculiar Disappearance.

J. D. Runyan of Butlerville, O., laid the peculiar disappearance of his painful symptoms of indigestion and biliousness to Dr. King's New Life Pills. He says: "They are a perfect remedy, for dizziness, sour stomach, headache, constipation, etc." Guaranteed at all drug stores; price 25c.

The inventor of the famous "TERRELL SCRAPE," a man known wherever plows are sold and used, says:

"I have used MOZLEY'S LEMON ELIXIR for 10 or 12 years in my family for the stomach, liver and kidneys, and find it is the best medicine I have ever used. It is also a sure specific for pain in the back or under the shoulders. I have recommended it in numerous cases to my workmen, when sick and unable to work, and it has always given perfect satisfaction. H. D. TERRELL, President Atlanta Plow Co., Atlanta."

SENTENCED FOR STEALING.

Two Colored Boys Broke Into Fleming's Store at Archer Tuesday.

Deputy Sheriff F. S. Curl of Archer was in the city Wednesday, having come with Raymond Surtain and Jesse Benbow, two colored boys, who were convicted in Justice Chamblin's court upon a charge of larceny, and were sentenced to three months each in the county prison.

These urchins demonstrated the fact that they were shrewd as far as their rascality was concerned. They entered the store of J. T. Fleming & Son some time late in the afternoon and hid behind some boxes in a rear room, according to their story. When the store was closed, about 7 o'clock, they proceeded to ransack the cash drawer of about $5 in cash, which had been left for change, and filled up a large bag with candy, crackers, etc.

Officer Curl is one of the most efficient in the county, as was proved in this instance. The burglary occurred between 7 and 8:30 o'clock in the evening and by 8 o'clock the following morning Officer Curl had them under arrest.

The defendants weakened as soon as arrested and related the entire story. The sentence on this account was made as light as Justice Chamblin decided was conservative.

A Romantic Marriage.

What might be termed as a rather romantic marriage was "pulled off" in this city Wednesday morning, the contracting parties being W. T. Jordan and Miss Mamie C. Beville, a charming young lady, both of Webster.

The marriage license was secured, and Attorney W. E. Baker, who is also a notary public, was called upon at his office to perform the ceremony, which he did with his usual grace, and with the dignity of a well-fed circuit rider.

Mr. and Mrs. Jordan left the city a happy and contented pair. They are prominent young people of the Webster section, and will no doubt be met by their friends and extended a cordial welcome on their return home.

CHURCH WAS DEMOLISHED.

Frame of Mount Olive Church Completely Wrecked Monday.

As the week draws nearer to a close The Sun hears of other calamities from the effect of the electrical and wind storm of Monday afternoon. The latest report is the complete destruction of the frame work of Mount Olive Church, colored, Springfield, and those who have seen it declare it was wrecked beyond repair.

The church was under course of erection and the loss at this time will be heavy to the little congregation who have worked hard and faithfully to accomplish what had already been done. It is understood, however, that an effort will be made to rebuild at once.

How to Avoid Appendicitis.

Most victims of appendicitis are those who are habitually constipated. Orino Laxative Fruit Syrup cures chronic constipation by stimulating the liver and bowels. Orino Laxative Fruit Syrup does not nauseate or grip and is mild and pleasant to take. Refuse substitutes. J. W. McCullom & Co.

An Enjoyable Function.

One of the most elaborate affairs ever given in Williston was a Dinner Dance given by Mrs. J. Q. Peacock Monday night, in honor of Miss Ruth Hale and J. E. Thomson, who were married the following morning. The house was beautifully illuminated and decorated.

A turkey and salad course was served at 11 o'clock, followed by fruit punch and ice cream. The elaborate bride's cake was cut at 12 o'clock. Miss Lillian Burke was the very fortunate one to cut the ring, Miss Hale the dime, J. H. Burke the button and Mr. Williamson the thimble, who with a very pretty speech presented it to the bride-elect.

Dancing and music was enjoyed until a late hour. Seated at the table were J. C. Thomson, Miss Ruth Hale, Q. E. Peacock, Miss Hale, Mr. Walker of Bartow, Miss Mildred Hale, Robert Thomson of Dunnellon, Miss Marie Peacock, J. H. Burke, Mr. Chase of Gainesville, Miss Lillian Burke of Jacksonville, Mr. Williamson of Zellwood, Mrs. S. Alexander, Mr. and Mrs. J. Q. Peacock.

Thousands Have Kidney Trouble and Never Suspect it.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

A Warning to Mothers.

Too much care cannot be used with small children during the hot weather of the summer months to guard against bowel troubles. As a rule it is only necessary to give the child a dose of castor oil to correct any disorder of the bowels. Do not use any substitute, but give the old-fashioned castor oil, and see that it is fresh, as rancid oil nauseates and has a tendency to gripe. If this does not check the bowels give Chamberlain's Colic, Cholera and Diarrhoea Remedy and then a dose of castor oil, and the disease may be checked in its incipiency and all danger avoided. The castor oil and this remedy should be procured at once and kept ready for instant use as soon as the first indication of any bowel trouble appears. This is the most successful treatment known and may be relied upon with implicit confidence even in cases of cholera infantum. For sale by all druggists.

Aged Man Commits Suicide.

St. Louis, August 2.—After apparently having spent the night writing his will and farewell letters, Frank Fortman, a tailor aged 76 years, went into the back yard and committed suicide with a revolver, the body being found today. He left a farewell note to his son, Otto L. Fortman, 409 North street, San Antonio, Tex., asking forgiveness for his acts. According to his will his property in San Antonio, $300 in cash, a gold watch, and a $2,000 policy in the Knights of Honor go to his son. He has requested that his body be cremated and the ashes sprinkled on his cemetery lot.

Covers from the pool and billiard tables had been wrapped around the safe and prevented anyone in the neighborhood from hearing the explosion.

New York, August 2.—Undesirable emigrants from all parts of Europe are pouring into this country at an increasing rate, according to United States Commissioner Watchern. About 48,000 emigrants arrived during July, against 36,000 in the same period last year. The undesirable element is shown by the increased number of depredations. More than a thousand were sent back during July as against 645 a year ago. The special boards of inquiry are working particularly hard, in order to prevent the undesirable emigrants from landing.

Want Jim Crow Law Repealed.

Nashville, Tenn., August 2.—At a mass meeting of prominent negroes here last night a movement was inaugurated to have the Jim Crow law repealed at the next session of the general assembly. Mass meetings have been held for that purpose recently in the several cities of the state. Cured Hay Fever and Summer Cold.

A. J. Nushbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. Fortunately I insisted upon having Foley's Honey and Tar and it cured me. My wife has since used Foley's Honey and Tar with the same success." J. W. McCollum & Co.

HAIR NATURALLY ABUNDANT.

When It Is Free of Dandruff, It Grows Luxuriantly.

Hair preparations and dandruff cures, as a rule, are sticky or irritating affairs that do no earthly good. Hair, when not diseased, grows naturally, luxuriantly. Dandruff is the cause of nine-tenths of all hair trouble, and dandruff is caused by a germ. The only way to cure dandruff is to kill the germ; and, so far, the only hair preparation that will positively destroy the germ is Newbro's Herpicide—absolutely harmless, free from grease, sediment, dye matter or dangerous drugs. It allays itching instantly; makes hair glossy and soft as silk. "Destroy the cause, you remove the effect." Sold by leading druggists. It's a very short alley that don't need cleaning.

Russell Sage will enter upon his ninetieth year next Friday.

Don't stop cleaning up, if you have begun it. If you haven't, begin it at once.

The trouble with the free thinker is that he wants to do all the thinking and not give the other fellow a show.

Occasionally the man who "butts in" gets "butted." If you can't stand a shock don't take hold of the handles.

Roger Q. Mills is talked of for Governor of Texas. Oh, yes; we do remember that there once was such a man in politics.

The Ocala Banner is right and we stand corrected on our Scripture. Some one has purloined our Book of books from the desk.

Two Italians who tried to escape from the detention camp at Lumberton, Miss., were ordered to halt. They refused and were shot. We may expect to hear from the King in a few days.

With the same diligence that has marked their efforts for the past few years, the Republican administration will soon have the treasury in such shape that it will not have enough in it to make a good rattle.

When we once get the habit of giving the streets and alleys a thorough cleaning every week, the work will be easier. There is just as much need of keeping the town clean as the house, and that has to be done. If we keep clean there need be no fear of fever of any color.

According to reports, the old adage about the "long lane" comes true in the case of Senator Mitchell of Oregon, who has been given a five years' sentence for land frauds. He deserted his wife and three children in Pennsylvania when he went West some years ago and married another woman. Justice has at last overtaken him.

There is to be an investigation in regard to the explosion of the boiler on the gunboat Bennington. This certainly must be a mere matter of form, as the boilers of the Bennington were known to be of a very weak make and were considered dangerous, yet they were permitted to be used when those in charge expected something of the sort to happen at any moment.

Governor LaFollette of Wisconsin is lecturing at numerous chautauquas throughout the country. His subject is "The World's Greatest Tragedy." It is to be hoped the people who know how the Governor has been battling with the monopolies of the country go to hear the lecture with the expectation of hearing something regarding the many wrongs the people are now enduring. They are surprised when they ascertain that the speaker delivers a very earnest and scholarly address on the Shakespearian tragedy of "Hamlet."

GREED THE CAUSE.

The Age-Herald of Birmingham, Ala., has the following sensible remarks regarding the conditions along the Gulf Coast and the cause of it. Greed of gain is the cause of the yellow fever outbreak, it says, and explains as follows:

"The quarantine at Galveston, New Orleans and Mobile had up to Wednesday of this week been conducted strictly on commercial, instead of public health lines. A warm rivalry has been going on over the fruit trade from the tropics. New Orleans has been losing to Mobile its grip upon that trade, and both have been permitting fruit ships to pass quarantine without much delay. It was the fruit trade, not the health of the people, that was considered, and New Orleans caught the fever germs from this unseemly and utterly unsafe strife.

"The remedy consists in placing the quarantine stations under Federal control. This has been done all along the South Atlantic Coast—in North Carolina, Georgia and Florida. For commercial reasons—fruit trade reasons—Alabama, Louisiana and Texas have refused to do away with State or municipal control.

"If Federal management of the quarantine stations on the Gulf Coast were conceded, there would be no more yellow fever in this country. A case or two might creep in, but all physicians now know how to handle the sporadic case. It is necessary to keep off by netting the stygomia, which alone can transmit the germs of the disease. But while a commercial quarantine lasts forty blocks become infected before confession is made of the presence in this country of the fever. The choice is between Federal quarantine and commercial quarantines, and New Orleans should not hesitate to adopt the former. The safety and prosperity of the Southern country, and therefore of New Orleans, demands Federal supervision of Gulf Coast quarantine stations."

FAIR BUILDINGS.

The work of erecting the State Fair buildings at Tampa, including the mammoth main exhibit building, began Monday, and will be pushed with all rapidity possible until the building is completed and ready for use. The firm to which the building contract was let was given eighty days in which to complete the work, and in case the buildings are not finished by this time the Fair Association will take the buildings in hand and complete them before the fair gates open, November 15th, at the expense of the contractor.

Heretofore one of the most serious drawbacks of fairs in general has been late opening. The directors in this case, however, are determined to have the buildings ready on time and not a detail will be lacking when the crowds are admitted on the date above mentioned.

No county can afford to go without representation at this, the greatest State Fair of the South's history.

FARMERS' INSTITUTES.

A few years ago the farmers of this county were very active in the matter of holding institutes and the plan was a good one. They should be kept up by all means and an organization maintained so that speakers could be secured and an appropriation from the State to maintain them.

The farmer is the backbone of the country and anything that will promote their welfare and carry a practical education to those who are thus engaged will be a benefit to the whole people. The matter should be looked up and dates fixed for the various counties, so that meetings could be arranged later in the season.

Big Cooperage Plant Fails.

Richmond, Ky., August 2.—W. H. Hume & Co., owners of the Hume Cooperage works, said to be the second largest establishment of its kind in the United States, filed a deed of assignment here today, naming Harvey Chenault, of Richmond, and Louis B. Herrington, of Atlanta, Ga., assignees. This move was caused by the action taken against the firm in the federal court at Covington yesterday when a petition in bankruptcy was filed against them. While no statement of the assets and liabilities has been filed it is said that the firm owes close to $400,000.

Woman Kills Mad Dog.

Macon, Ga., August 2.—Three deliberate shots, the last of which took effect, from a revolver in the hands of Mrs. Wesley S. Poole, saved her five children and herself from the terrible attack of a mad mastiff this morning at the family home on Fourth street. The dog was wild and had made a dash for the children who were playing on the grass in the front yard.

Co-operative Colony Buys Land.

Portland, Ore., August 2.—Contracts have been signed in this city for the sale of the French-Glenn ranch in Harney county, Oregon, comprising 164,000 acres to the Co-operative Christian Federation. The consideration is $1,800,000. The French-Glenn ranch is 60 miles long and 25 miles in width.

Periodic Pains.

Dr. Miles' Anti-Pain Pills are a most remarkable remedy for the relief of periodic pains, backache, nervous or sick headache, or any of the distressing aches and pains that cause women so much suffering.

As pain is weakening, and leaves the system in an exhausted condition, it is wrong to suffer a moment longer than necessary, and you should take the Anti-Pain Pills on first indication of an attack.

If taken as directed you may have entire confidence in their effectiveness, as well as in the fact that they will leave no disagreeable after-effects.

They contain no morphine, opium, chloral, cocaine or other dangerous drugs.

"For a long time I have suffered greatly with spells of backache, that seem almost more than I can endure. These attacks come on every month, and last two or three days. I have never been able to get anything that would give me much relief until I began the use of Dr. Miles' Anti-Pain Pills, and they always relieve me in a short time. My sister, who suffers the same way, has used them with the same results." MRS. PARK.
721 S. Michigan St., South Bend, Ind.

Dr. Miles' Anti-Pain Pills are sold by your druggist, who will guarantee that the first package will benefit. If it fails he will return your money. 25 doses, 25 cents. Never sold in bulk.

HIGHWAYMEN HOLD UP AUTO.

Occupants Were Relieved of Cash, Watches and Jewelry.

Chicago, August 2.—An automobile party consisting of two men and three women was held up and robbed last night on the Sheridan road between Winnetka and Glenco by three masked bandits.

The touring car was ascending Hubbard Hill, when the robbers opened fire with revolvers on the occupants. Two bullets punctured a front tire and then struck the side of the machine. Owing to the tire being punctured, escape was impossible.

The robbers, flourishing their weapons, ran down the hill to where the automobile stopped and compelled the occupants to hand over their valuables. The highwaymen then made their escape.

The victims were C. A. Woodruff, purchasing agent for Armour & Co.; Mrs. C. A. Woodruff, H. G. McClelland, Mrs. H. G. McClelland and Mrs. W. A. Schlossman.

The total value of the plunder taken was worth several hundreds dollars. Woodruff was robbed of $35, Mrs. Woodruff of jewelry and a small amount of money; Mr. McClelland, of $40 and a valuable watch, Mrs. McClelland of rings torn from her fingers and Mrs. Schlossman of a diamond brooch valued at $300.

A short time before the automobilists were held up, Carl Miller, an expressman living near Hubard Hill, was attacked in his house by the same three men and robbed of $18. He was severely beaten over the head with revolvers.

A Touching Story

Is the saving from death of the baby girl of Geo. A. Eyler, Cumberland, Md. He writes: "At the age of 11 months, our little girl was in declining health, with serious throat trouble, and two physicians gave her up. We were almost in despair, when we resolved to try Dr. King's New Discovery for consumption, coughs and colds. The first bottle gave relief; after taking four bottles she was cured, and is now in perfect health." Never fails to relieve and cure a cough or cold. At all drug stores; 50c and $1; guaranteed. Trial bottle free.

Packing House Burns Down.

St. Joseph, Mo., August 2.—Fire of unknown origin, which started at 1 o'clock this morning in the beef beds of the local plant of Swift & Co., entirely destroyed the beef department. The entire fire apparatus of the packing companies and of the city were called out and after battling with the flames for four hours got the fire under control. The beef and other departments were gutted and part of the poultry department destroyed. The loss is estimated at fifty thousand dollars. The partial destruction of the plant will in nowise interfere with the business of the local live stock market. The loss is covered by insurance.

Another Good Man Gone Wrong.

He neglected to take Foley's Kidney Cure at the first signs of kidney trouble, hoping it would wear away, and he was soon a victim of Bright's disease. There is danger in delay, but if Foley's Kidney Cure is taken at once the symptoms will disappear, the kidneys are strengthened and you are soon sound and well. A. R. Bass of Morgantown, Ind., had to get up ten or twelve times in the night, and had a severe backache and pains in the kidneys, and was cured by Foley's Kidney Cure. J. W. McCollum & Co.

BILL TO REDUCE SALARIES.

Railroad Commissioners Are Paid Too Much—Other Legislative News.

Atlanta, August 2.—Somewhat of a stir was created in the house yesterday when the general assembly appropriations bill was under discussion, by an amendment offered by Mr. Knight, of Berrien, proposing to reduce the salaries of the members of the railroad commission from $2,500 to $1,000 each.

The appropriation to the state sanitarium at Milledgeville brought up the next debate. The sanitarium was given $337,500 in 1905 and the committee increased it to $360,000 for 1906 and $379,000 for 1907.

Mr Davis, of Burke, chairman of the general appropriations committee, explained why the increase had been made at the urgent solicitation of the trustees. Considering the conditions and the number of inmates cared for, the state sanitarium, Mr. Davis declared, is the cheapest of all the state's institutions. There are now 3,016 patients in the sanitarium, and they are increasing at the rate of 100 a year. He said the trustees had asked for $397,000 for 1906, and $407,000 for 1907, but the committee had gone carefully into the matter and considered that, while the amounts given by the committee would be sufficient, they were absolutely needed.

In the Senate.

An important suggested amendment to the constitution of the state which has been before the legislature for the past several years, but which the general assembly has never yet given the people an opportunity to pass upon was again presented in the senate Monday by Senator Candler.

Senator Candler's bill provides for an amendment to paragraph 2, section 2 of article 7 of the constitution of Georgia so as to enlarge the power of exemption from taxation of all places of religious worship of burial, and all property belonging to colleges, incorporated academies of other seminaries of learning.

The only general measure which has been transmitted to the senate by the house came over Monday. This was Hon. T. B. Felder's reformatory bill. It will doubtless be several days before this bill will reach a vote in the senate, as it has yet to be read the required number of times and be considered by the proper committee.

A Worm Killer.

J A J Montgomery, Puxico, Wayne county, Mo., writes: "I have little twin girls, who have been bothered with worms all their lives. I tried everything to relieve them, which failed until I used White's Cream Vermifuge; the first two doses brought four worms from one of them, the next two doses, twelve, one of them measuring twelve inches; the other child was only relieved of four worms. It is an excellent medicine." White's Cream Vermifuge is good for children. It not only destroys worms—it helps the child to perfect growth, wards off sickness. Sold by W. M. Johnson.

War Declared on the Mosquitoes.

New York, August 2.—Destruction of mosquito larvae will call for the extermination of the shrubbery around Long Island and New Jersey resorts, has almost eliminated the pests, according to reports collected by the Board. Experiments which began two or three years ago have been entirely efficient. The sprinkling of pools with crude oil has been reinforced by systematic ditching at many points which has completely obliterated the swamp spot where the mosquitoes were in former years bred by the million.

Rheumatism.

When pains or irritation exist on any part of the body, the application of Ballard's Snow Liniment gives prompt relief. E. W. Sullivan, proprietor Sullivan House, El Reno, O. T., writes, June 2 1903: "I take pleasure in recommending Ballard's Snow Liniment to all who are afflicted with rheumatism. It is the only remedy I have found that gives immediate relief." 25c and $1. Sold by W. M. Johnson.

FIGHT FOR CUSTODY OF MOTHER

Children Want to Keep Their Parent So They Can Get Money.

Chicago, August 2.—Mrs. Mary Mulholland, the wealthy Vicksburg, Miss., widow, alleged to be held a captive in the Gerald building, by her two daughters, Daisy E. and Hattie Mulholland, has been found by a deputy sheriff at the residence of her brother, Fred Sloat.

Mrs. Mary Fovell, also a daughter of Mrs. Mulholland, had begun habeas corpus proceedings. Discovery of the missing woman brought with it a threatened arrest of Miss Daisy Mulholland on the charge of contempt of court. She was taken into custody and then released on promising to produce her mother before Judge Dupuy where the battle for the aged woman's custody today will be fought.

Patrick Henry, administrator of the estate of Charles Mulholland, who became wealthy operating Mississippi river steamboats, many years ago, is in Chicago ready to take part in the controversy over the custody of the widow. It is said that the county may be appealed to for an examination into the sanity of Mrs. Mulholland.

Nothing on the Market Equal to Chamberlain's Colic, Cholera and Diarrhoea Remedy.

This fact is well known to druggists everywhere, and nine out of ten will give their customers this preparation when the best is asked for. Mr. Obe Witmer, a prominent druggist of Joplin, Mo., in a circular to his customers, says: "There is nothing on the market in the way of patent medicine which equals Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints. We sell and recommend this preparation." For sale by all druggists.

Given Up to Die.

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run-down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good, and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured." J. W. McCollum & Co.

OFFICIALS HAVE THE SITUATION IN HAND

Reports Claim They Are Gaining a Victory Over Fever.

PLAGUE YIELDING TO SCIENCE

Texas and Louisiana Towns Continue To Quarantine Against the Crescent City—Health Authorities Believe They Have Fever Under Control.

New Orleans, La., August 2.—Little change characterized the yellow fever situation today. Of the five new foci mentioned in the official report of the city board of health in the preceding 24 hours, only three are above Canal street, in widely separated districts all dare traceable to the original zone of infection.

Today's reports of convalescents is especially encouraging and it is becoming evident that with careful treatment the present visitation of the fever will be shorn of many of its terrors.

Reports from the bedsides of those other than Italians were to the effect that the disease was steadily yielding to treatment.

The announcement by Dr. Tabor of a quarantine against the whole state of Louisiana promises to again throw traffic on the west side of the river out of joint. Under this order no one can enter the state of Texas coming from this city without first having gone into a camp of detention for six days. The effect will be to prevent practically all passenger traffic hence to Texas. The hope here is that Dr. Tabor will not still further extend his restrictions so as to include freight.

Thousands of circulars are to be sent through the south by the business men of New Orleans containing an emphatic declaration by Dr. J. H. White, of the Marine hospital service that freight cannot carry yellow fever infection. Dr. White has written the letter to President Kohnke, of the board of trade. Dr. White says:

There is no possible way in which yellow fever may be transmitted other than by the mosquito and freight cannot under any circumstances be infected in this way, but only in so far as it might become the residence of an infected mosquito, much less the infected mosquito, whose presence in business and manufacturing establishments would, in the nature of things, be a very remote contingency.

Captain Frederick Singer, of the New Orleans naval station has no apprehension of a case of fever on the reservation. Last June he oiled all cisterns and pools, screened all the quarters and practically wiped out all mosquitoes.

Rev. Dr. Bevier Warner has called attention to the fact that his agents are meeting with some opposition on the part of householders to oiling and screening. It is proposed to make public the names of all who refuse to fall in line with the campaign against the mosquito.

A number of tenders of assistance from nurses and doctors in other parts of the country have been received but while acknowledging the spirit in which these offers are made the authorities announce that there is not yet enough sickness to keep the present nnurses and doctors employed. A large number of physicians here have not had a single case of yellow fever in their practice.

The Italians who formed a permanent organization on Sunday have opened headquarters in the heart of the originally infected district ad are already investigating and fulfilling request sfor relief. Immunes have been appointed to visit the stricken district and report the number of sick and the number in distress.

Three new cases and one death from fever were reported up to noon today.

The state board of health has issuec a proclamation to all municipal and parish boards to recognize health officials of the marine hospital service and not to quarantine freight or express matter.

THREE SENTENCED TO HANG.

Father and Two Sons Must Die on Gallows for Murder.

Valdosta, August 2.—Judge R. G. Mitchell passed sentences on J. G. Rawlings and his three sons, Milton, Jesse and Leonard. The scene was one of the most touching and dramatic ever witnessed in a court in this city.

The first three were sentenced to be hanged September 15, an dLeonard was sentenced to life imprisonment.

When th eelder Rawlings was asked if he had anything to say why sentence should not be passed upon him, he arose and said: "I have a conscience that stands correct. You can no more pluck it than you can the brightness of the sun. Your sentence can do no more than kill. Pass it."

Milto received the sentence stoically and never opened his mouth. Jesse and Leonard burst into tears, and both of them said "I am innocent."

Mrs. Rawlings and her two daughters were present, and on them the blow fell with crushing force, all of the mweeping bitterly.

NEW ANGLO-JAPANESE TREATY.

Great Britain Hopes that an Alliance Con Be Formed Soon.

London, August 2.—Considerable progress is being made with the new Anglo-Japanese treaty alliance, which the foreign office hopes will be concluded at an early date. Some of the details have not yet been fully settled, but it can be definitely stated that the terms will be more comprehensive than those governing the present alliance. The treaty will be promulgated as soon as completed, there being a desire on the part of the British government to make its publication dependent on the conclusio of peace.

As to the suggestion that Great Britain should advise Japan to be lenient, the Associated Press hears that the British government's presumptions are that its advice will be asked by Japan in the cousse of the peace negotiations, and that it will then gladly offer what counsed may seem to it best calculated to assure a permanent peace.

Kaiser's Visit Only Courtesy.

Copenhagen, August 2.—It is officially announced that Emperor William's visit is devoid of special significance, that it is solely one of courtesy to King Chirstian, and that no conferences of a political nature will be held during his mayesty's stay in Copenhagen. Emperor William will bed farewell to King Christian tomorrow afternoon after lunch on the Hohenzollern. He expects to sail for Schwinemunde the same evening.

TELEGRAPHERS GO OUT ON A STRIKE

The Men Claim That They Were Forced to Quit.

STRIKERS ARE STANDING FIRM

An Increase in Wages Was Wanted by Men, But Company Refused to Grant the Raise, and Discharged Those Who Would Not Accept.

St. Paul, August 2.—Differences between the telegraphers employed on the Great Northern company and their employers reached a climax today when nearly all the operators on the Wilmar, Fergus Falls and Breckenridge divisions quit work.

The men claim it is a lockout on the part of the road because they will not accept the terms offered. The company claims it is because the men are not satisfied. A circular to its employes the company proposes a schedule of wages which is claimed give an increases to the men amounting to $20,000 annually. The men, on the other hand, assert that the increase amounts to only $7,000 or $8,000 annually for about a thousand men.

The employes were asked in the circular to decide whehter they wished to continue in the company's service and be governed by its new rules and regulations. When the men refused to accept this proposition they claim that they were at once discharged.

President Perham, of the Railway Telegraphers' union, said today:

"But one man has failed us. Elsewhere they have gone out uniformly. The superintendents have not called on operatops or agents in the Twin Cities or any large stations. I want to make it clear that this is not a strike, but it is a lockout."

SCOTLAND YARD IN CHICAGO.

New Departure Is Contemplated By Chicago's Chief of Police.

Chicago, Ill., August 2.—Chicago will soon have its own Scotland yard.

Chief of Police John M. Collins announces that in a few days he will establish a murder bureau under the tutelage of Assistant Chief Schumler. The assistant chief will have on his special staff eight of the best detectives in the city and will work in harmony with the state's attorney's office.

One object of the innovation is the gathering and holding of evidence. As soon as a murder or any other big crime is committed, the runners from Schuettler's office will go to the scene with a photographer or an artist or draftsman. Every bit of tangible evidence will be picked up, labeled and used by the detectives in working up uthe case and in its prosecution in the criminal court.

The plan is in practice in Berlin, London and New York.

Finds His Boy In Penitentiary.

Jefferson City, Mo., August 2.—After a long and unsuccessful search for their son, Roy Courtwright, a prosperous blacksmith of Kansas City, and his wife believed their son had been kidnaped until following a last chance urged by his wife, Mr. Courtwright today applied at the penitentiary and his son serving a term of two years. The boy had been convicted of stealing four sweaters at Springfield, Mo., and was sent to the penitentiary in October, 1904. At that time, in order to protect the good name of his parents, he had said they were dead. He left home suddenly to see the world and no tidings regarding him had ever been received by his parents. Efforts will be made to secure a pardon for the boy.

MOODY AT SAGAMORE HILL.

President Roosevelt Receives the Attorney General at His Home.

Oyster Bay, L. I., August 2.—Attorney General W. H. Moody arrived here today somewhat unexpectedly. He was to have come to Oyster Bay this evening to pass the night at Sagamore Hill, but as he came up Long Island sound on the dispatch boat Dolphin, he concluded to land here rather than go to New York for the day.

The attorney general has been cruising for a week along the north Atlantic coast in the Dolphin. After he was landed here the Dolphin proceeded to the New York navy yard, where she will be fitted out for the use of the Japanese envoys. They will make the trip from Oyster Bay to Portsmouth, N. H., in the vessel.

Attorney General Moody drove out to Sagamore Hill. His mission here at this time is to consider with the president the cases that have been turned over to the department of justice from the agricultural department.

Inquiries are now being made by the attorney general into the scandals developed by the leak in the cotton crop report and the case of Dr. Geo. T. Moore who resigned because of his connection with a nitro-culture company.

The attorney general expects to go from Oyster Bay to Washington. He may leave tonight or he may conclude to remain at Sagamore Hill until tomorrow morning.

WILL FIGHT CARBON TRUST.

Rockefeller Said To Be Backing an Independent Concern.

Cleveland, O., August 2.—The Plain Dealer says today that the National Carbon company, known as the Carbon trust, soon will have a competitor with immense financial backing. It has developed here that Rockefeller interests are behind the United States Carbon company, which soon will be financed with a capitalization close to $1,000,000.

For more than a year the local concern has been closed down. About a month ago, however, the property was bought up by the East Ohio Gas company a Rockefeller corporation. The plant is being overhauled and will be turning out carbon products by Sept. 1. Burton Foster, manager of the company, said that in addition to the plant here, branches will be established in the natural gas belts of Ohio and Indiana. The organization will be built rapidly to complete the National company.

Mr. Foster said the company will be maintained as an independent institution regardless of its backing and will have the distinction of being the only independent carbon company on America soil.

Faiures Cause Panic In Paris.

New York, August 2.—There was a panic yesterday on the boerse de commerce caused by the announcement that the two leading firms had suspended, says a Herald dispatch from Paris. As already sabled, the failures were due to the failure of a well known speculator merchant, and member of the chamber of the deputies to meet his engagements. For a short time it was hoped that an arrangement would be made which would prevent a crash on the exchange, but this optimism proved unfounded, and the disorder to such a point that no quotations for sugar could be given at the end of the market. The immediate cause of the speculator's discomfiture is found in Saturday's quotation for sugar, namely 28f 12c a bag. At the beginning of the year the prices ruled at 45f to 46f.

French Steamers for Mobile.

Mobile, Ala., August 2.—Many efforts of the promoter, George A. Riviere, the French consul at this port, Mobile has secured a French line of steamers, the first to come to this port. According to th announcement the line will inaugurate the service with three steamers with American charter and subsidized by the French government. The service starts in the early part of November with steamers to Havre direct. Later Bordeaux is to be included in the schedule of sailings. The new enterprise will begin business under the most flattering auspices.

NEW TREATY FOR AMERICA AND CHINA

Text of the Proposed Document Made Known

TO EXCLUDE CHINESE LABORERS

All Disagreements Arising from Interpretations Shall Be Referred to Arbitrators—Uncle Sam Is Now Considering New Treaty.

Seattle, Wash., August 2.—The Post Intelligencer today publishes a text of the proposed new treaty on the immigration question as set forth by the Chinese government. The draft is under consideration by this government being a substitute for the last treaty between the United States. After date of signing the treaty laborers of both countries shall be excluded from the other, laborers being miners, hawkers, washermen, fishers who sell ordinary fish for local trade. The treaty is not retroactive, provisions being made for laborers to return to their native countries, certificates being furnished Chinese laborers for countries other than America shall have the right to pass through the United States subject to the regulations of the nation. American possessions being different from America proper, Chinese laborers may be admitted into the Hawaiian Islands, and Philippines as subjects of foreign nations.

Chinese subjects other than laborers shall be admitted into the and permitted to reside in this country provided that certificates are furnished them.

All Chinese subjects who wish to enter America having proper credentials, shall not be detained or imprisoned. When officials desire to inquire into the rights granted to Chinese subjects admitting them into America, or rights of treaty, said subjects shall be allowed to secure for themselves representatives. The right to appeal from the ruling of the officials is granted. Where Chinese have no authority to enter, the officials have power to grant entrance or passage through the country. Chinese in America shall be arrested without a warrant.

Chinese excepting laborers, permanent or transient, shall have privilege of bringing families to this country, if they present proper certificates. Chinese cannot become citizens. The United States and China have the right to register Americans and Chinese in respective counties. Disagreements in interpretations of treaty are to be referred to The Hague or arbitrators elected by sanction of both countries. The treaty is to be effective ten years, and notice is necessary to abrogate.

Employe Admits Robbery.

Palatka, Fla., August 2.—John T. Graves, an employe of the Southern Express company, who claimed he was gagged and tied on the morning of the 29th of July about 3 o'clock and the safe robbed of about $2,000, as previously published, confessed Monday afternoon to having committed the theft and gave up the money, which amounted to $1,835.10. He first hid the money i nan incubator in hois room in the express office. Later in the day he removed it to the union depot, secreting it in an ice box. He was arraigned before Justice Royton and was held on $2,500 bail, in default of which he was sent to jail to await the action of the criminal court.

Engineer Killed In Wreck.

Bainbridge, Ga., August 2.—A collision occurred here on the Atlantic Coast Line on the high embankment approaching Flint river bridge, about a quarter of a mile west of the depot, between an extra freight train going west, and the rear end of a string of cars being backed east by a switch engine. Engineer C. P. Jones of the freight train, was instantly killed, and Ed Underwood, a negro brakeman of the freight train was so badly hurt that he died a short time afterwards. No one else on either train was hurt. The firemen jumped in time to save his life.

REAL ESTATE IS LIVELY NOW

Changes Are Rapid in Vicinity of University Grounds.

THE DEMAND IS GENERAL

And Prices Good, But Indications Are the City Will Build More Rapidly in Westerly Direction for the Next Two Years—Many Sales Last Week.

Real estate in the vicinity of the University grounds is rapidly changing hands, and prices have advanced considerably, ranging from $75 to $100 per acre, the price being governed by the proximity of the land to the University property. Four or five transfers were made during the week just closed, one sale aggregating twenty-eight acres, which it is understood brought $3,000. The trend is already turning westward, and that section of the city is assured of a wonderful growth within the next two years. The real estate market is lively everywhere, however, and property in any section of the city is in demand.

NOTES FROM LACROSSE.

Cotton Opening Fast—Yield Will Not be as Large as Last Year.

LaCrosse, Aug. 1.—The Sunday school union of the Santa Fe River Association met with the LaCrosse Baptist church last Friday and held till Sunday night. The meeting was well attended and proved of great benefit to everyone. The missionary sermon was preached on Sunday by Rev. Dr. Allen of DeLand, one of the ablest divines in the Baptist ranks in Florida.

Mrs. John N. Thompson is visiting relatives at Island Grove this week.

Judge T. A. Parker of Waycross, Ga., spent a couple of days here last week, the guest of his cousin, H. C. Parker. On Friday night he delivered a temperance lecture to a large audience at the Baptist church, which was pronounced the best of its kind ever heard here.

J. T. Stokes is busy taking the census.

M. Z. Turner, a merchant of Ward City, was here on business Tuesday.

There will be an election held here on August 15th to determine if this shall be a sub-school district. There is no doubt but the majority will be in favor of the school interests, as the people want the best possible in the way of progressive schools. As a sub-district means better schools we hope there will not be a vote against the measure.

Miss Ada Reddish of Waldo visited Miss Lula Sloan here several days last week.

Hon. W. M. Blitch of Santa Fe was a visitor here Monday.

The farmers are beginning to pick cotton, which is opening very fast, especially the earliest planting. Several small lots have been sold here at five cents per pound in the seed. The yield here will not be as large as last season. Capt. H. C. Parker has bought 125 pounds.

Mrs. S. V. Stokes is visiting her son, Mallory, at Lake Butler this week.

The acreage in sweet potatoes in this section is much larger than in former years, and from appearances the crop will yield well this season.

Mrs. L. F. Osteen is home again after spending a few days with her sister, Mrs. Clark, at Arno.

Misses Alice and Leila Cato and C. C. Griffin were pleasant visitors to LaCrosse Saturday and Sunday.

Chas. Durrance, mail clerk on the Starke and Wannee route, attended services at the Baptist church Sunday morning.

Albert Strickland and family passed through LaCrosse today on their way to Worthington.

Miss Hattie Wills of Starke is visiting her sister, Mrs. D. D. Weeks.

Raleigh Reaves and Rufus Dell of Alachua spent Sunday in LaCrosse.

A Worm Killer.

J. A. J. Montgomery, Puxico, Wayne county, Mo., writes: "I have little twin girls, who have been bothered with worms all their lives. I tried everything to relieve them, which failed until I used White's Cream Vermifuge; the first two doses brought four worms from one of them, the next two doses, twelve, one of them measuring twelve inches; the other child was only relieved of four worms. It is an excellent medicine." White's Cream Vermifuge is good for children. It not only destroys worms—it helps the child to perfect growth, wards off sickness.

Another Good Man Gone Wrong.

He neglected to take Foley's Kidney Cure at the first signs of kidney trouble, hoping it would wear away, and he was soon a victim of Bright's disease. There is danger in delay, but if Foley's Kidney Cure is taken at once the symptoms will disappear, the kidneys are strengthened and you are soon sound and well. A. R. Bass of Morgantown, Ind., had to get up ten or twelve times in the night, and had a severe backache and pains in the kidneys, and was cured by Foley's Kidney Cure. J. W. McCollum & Co.

Herbine

Renders the bile more fluid and thus helps the blood to flow; it affords prompt relief from biliousness, indigestion, sick and nervous headaches, and over-indulgence in food and drink. G. L. Caldwell, agent M. K. & T. R. R., Checotah, Ind. Ter., writes, April 18, 1903: "I was sick for over two years with enlargement of the liver and spleen. The doctors did me no good, and I had given up all hope of being cured, when my druggist advised me to use Herbine. It has made me sound and well." 50c. Sold by W. M. Johnson.

JUSTICE COLMAN'S COURT.

Richard Little Placed Under Heavy Bond to Keep the Peace.

Richard Little was arraigned in Justice Colman's court Tuesday upon the charge of attempted assault with a deadly weapon upon the person of Charlie Polite. Polite, who caused the warrant to be issued, declared before the court that Little "came after him" with a gun a few days recently and on divers occasions had threatened to feed the buzzards on his carcas. After weighing the evidence, Justice Colman placed Little under a peace bond of $500.

Charlie Polite is now under bond for his appearance at the fall term of the circuit court, charged with assaulting Richard Little and his brother and beating them over the head with a railroad coupling pin, on the Gainesville and Gulf Railroad, a few months ago. Polite was arraigned in justice court and required to give bond for his appearance to the higher tribunal.

Cured Hay Fever and Summer Cold.

A. J. Nushbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed to only aggravate my case. Fortunately I insisted upon having Foley's Honey and Tar and it cured me. My wife has since used Foley's Honey and Tar with the same success." J. W. McCollum & Co.

ANOTHER PROPERTY TRANSFER.

R. A. Becker Purchases Land, and Will Cut Up Into Lots for Market.

Notwithstanding that R. A. Becker expects soon to return to New York and accept a position as master of a ship, he retains confidence in Gainesville and its future, as is best demonstrated by the fact that on Monday he purchased through J. W. Patton, as agent, a tract of two and one-half acres of land near the University grounds.

It is the purpose of Mr. Becker to divide this tract into nine lots, which will be placed upon the market. They are most desirably located, and will no doubt sell readily at the proper time.

While Mr. Becker will be absent from the city a great deal of the time, friends will be glad to learn that the family will remain here.

Given Up to Die.

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run-down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good, and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured." J. W. McCollum & Co.

LIGHTNING PLAYED HAVOC MONDAY

Two Houses Were Struck in East Gainesville---One Damaged.

MRS. S. L. CARTER STUNNED

The Lady Was Unconscious for Some Time, But Assistance Was Soon on Hand and She Recovered—Home of Judge Arnow Suffered a Big Loss.

During the heavy thunderstorm in this section Monday afternoon, which was one of the most severe known here in several years, the lightning played havoc, especially in East Gainesville, and it is a miracle that that there were no serious calamities to report.

Mrs. Syd L. Carter knows how it feels to be stunned by lightning. While seated in a room, 1000 East Arlington street, the lightning struck the residence. The lady was seated at a table writing in the room struck, and was rendered unconscious. Miss Florence Anderson, who was also in the house, but in another room, suspected that Mrs. Carter was injured and rushed to her assistance. She found the lady lying upon the floor in an unconscious condition. Other assistance was summoned, and after a time Mrs. Carter regained consciousness. Friends of the lady will be glad to learn that she has experienced no inconvenience from her experience, but it was a close call indeed.

Arnow's Home Damaged.

Lightning struck the home of Postmaster George J. Arnow, 709 S. Carter street, completely wrecking a portion of the house, and causing damage to the amount of about $300. The lightning entered the cupola and found its way into every room, save one. A pantry in the dining-room was completely demolished, and the bed in Postmaster Arnow's room was struck and partly wrecked. Fortunately there was no one at home at the time, or the result might have been more serious.

I can give it unqualified recommendation." 25c, 50c, $1.00. Sold by W. M. Johnson.

FIRE AT GAS WORKS.

Occurred Monday Morning and Created Considerable Excitement.

An alarm of fire was turned in from Box 82 at 9:30 o'clock Monday morning, which summoned the department to the gas plant of the Gainesville Gas and Electric Power Company.

The department responded promptly, but owing to the material, together with the fact that the place was as dry as the proverbial cinder, the entire roof was in flames before water could be turned on. The department did excellent work, however, and managed to check the flames in a short while, notwithstanding that the roof, which was little more than a skeleton, was entirely consumed. There was little or no damage to the machinery, and the process of gas making was not disturbed.

The fire caused considerable excitement and it was one instance where the spectators did not have to be driven back by the firemen, owing to the presence on one side of a large gas reservoir and on the other the immense tank of the Standard Oil Company filled with the products of that great concern. It was not necessary for the officers of the fire department to order "Stand back!" this time, as those present exercised that precaution without command.

It may have been a coincidence, but it is a fact, that just four years ago to the day, on Monday, and with only a few moments' difference in the time, a similar fire occurred at the gas plant.

The origin of the fire is unknown. The damage has not yet been determined, but Manager Doig says it will aggregate several hundred dollars, and is covered by insurance..

AN ENJOYABLE EVENING.

Center Lodge No. 11, I. O. O. F., Had a Sumptuous Spread.

Center Lodge No. 11, Independent Order of Odd Fellows, has always enjoyed a reputation as being up-to-date in whatever its members undertook, and the spread and smoker at the conclusion of the regular lodge session Monday evening was no exception.

The attendance was large, and those present had the privilege of seeing work in the Second degree conferred in an interesting manner by a good team.

At the conclusion of the lodge session the brothers joined in a fine spread in the banquet room. This spread consisted of ice cream, cake, coffee, sandwiches, etc., and it is needless to add that it was enjoyed. M. B. Saunders was the principal caterer upon this occasion, and as usual did himself proud. He was ably assisted in this work by A. M. Cushman and Robert McClellan,

The feast was followed by a smoker, and altogether the evening was most pleasantly passed away.

Death of Miss Hall.

Friends of Mr. and Mrs. Green Hall, Orange Heights, sympathize with them in the death of their beloved daughter, Miss Lou Hall, which occurred at their home Saturday last.

Deceased was about twenty years of age and was possessed of a most amiable disposition.

The funeral was held Monday and the interment was in Orange Heights cemetery.

Public is Aroused.

The public is aroused to a knowledge of the curative merits of that great medicinal tonic, Electric Bitters, for sick stomach, liver and kidneys. Mary H. Walters of 546 St. Clair Ave., Columbus, O., writes: "For several months I was given up to die. I had fever and ague, my nerves were wrecked; I could not sleep, and my stomach was so weak, from useless doctors' drugs, that I could not eat. Soon after beginning to take Electric Bitters, I obtained relief, and in a short time I was entirely cured." Guaranteed at all drug stores; price 50c.

Death of Mr. Ward.

Information was received in this city Monday of the death of S. L. Ward, which occurred at his home at Orange Heights Sunday.

GAINESVILLE'S FIRST COTTON.

It Arrived Saturday and Was Purchased by John Chesnut.

The first cotton of the season arrived in Gainesville Saturday, and was, as is usual every year, purchased by John Chesnut at a fair price.

The cotton was grown by Sam Fraser, an industrious colored farmer, and was of very fair quality.

It is a peculiar fact that each year, as a rule, the first cotton produced and marketed is by colored farmers. The first produced in the county this year and placed upon the market was also raised by a colored man and purchased by C. B. McClenney, Sons & Co., Cadillac, mention of which was made in The Sun of Friday, the 28th inst.

Hurrah for the thrifty colored farmer.

A Touching Story

Is the saving from death of the baby girl of Geo. A. Eyler, Cumberland, Md. He writes: "At the age of 11 months, our little girl was in declining health, with serious throat trouble, and two physicians gave her up. We were almost in despair, when we resolved to try Dr. King's New Discovery for consumption, coughs and colds. The first bottle gave relief; after taking four bottles she was cured, and is now in perfect health." Never fails to relieve and cure a cough or cold. At all drug stores; 50c and $1; guaranteed. Trial bottle free.

A Jolly Party.

A jolly party of ladies left this city Monday for Worthington Springs to recuperate for a few days. The party comprises Mrs. Annie J. Brown, Mrs. George Estabrook, Mrs. George W. Hyde, Mrs. G. B. Tison and her little daughter, and Misses Manners and Lynn.

Friends of the party wish them a pleasant and beneficial outing.

Rheumatism.

When pains or irritation exist on any part of the body, the application of Ballard's Snow Liniment gives prompt relief. E. W. Sullivan, proprietor Sullivan House, El Reno, O. T., writes, June 6, 1902: "I take pleasure in recommending Ballard's Snow Liniment to all who are afflicted with rheumatism. It is the only remedy I have found that gives immediate relief." 25c, 50c and $1. Sold by W. M. Johnson.

In the Mayor's Court.

W. W. Gary was arraigned in the mayor's court Monday morning upon a charge of slapping his wife during a domestic quarrel. Gary pleaded guilty and was assessed a fine of $2.50 and costs, which was paid and the defendant was released. Rather expensive slapping.

ALACHUA WILL SHOW FINE LIVE STOCK

At the Florida State Fair to be Held in Tampa in November.

PRIZE WINNERS TO BE THERE

Manager Callison of Spring Park Farm Will Take Two Carloads of Hereford and Jersey Stock, and Berkshire Hogs—Interest in Fair Increases.

N. A. Callison, manager of the Spring Park Farm at Bennington, is determined to show the people of the world what Alachua county is capable of doing in stock raising, and will have on exhibition at the State Fair, which will convene in Tampa in November, two carloads of Hereford and Jersey cattle, and Berkshire hogs. Several head of this stock are already prize winners, having been awarded prizes at the World's Fair, St. Louis, and at various State fairs. There is little doubt but that they will walk off with the honors at Tampa.

Interest seems to be increasing in the State Fair in this county. As has already been said, Alachua county, being one of the richest and most diversified in the State, should come first not only alphabetically, but in a "show-down" at Tampa, and it is believed that we will capture at least one of the six prizes for county exhibits.

There are several of the most prominent residents of the various sections who have the interests of the county at heart, and they have promised Jesse E. Burtz, who is representing the State Fair Association in the capacity of vice-president, that they would exercise every effort to make the Alachua county exhibit a success. Among these are Dr. J. B. Curtis of Orange Heights, F. P. Henderson of Arno, LeRoy N. Pearce of Alachua, F. P. and Perry G. Ramsey of Waeahoota, and many other leading citizens, business men, planters and horticulturists.

The people of Alachua county should come together in this move, for it will afford the best opportunity to present before the world the advantages offered here from every standpoint. The Florida State Fair for 1905 will be the largest ever attempted in the South, and it should be a county as well as a State pride.

YELLOW FEVER NOTES.

Where the Disease is Located in the Various States.

Lumberton, Miss., has made a desperate effort to check the plague.

There is one case at Montgomery, Ala. The patient was taken sick July 28, at a hotel.

Victor Vitello, the West Tampa yellow fever patient, is reported to be steadily improving.

Mississippi has placed a quarantine on fruit, and no more will be allowed to come within certain limits.

Close watch is kept along the Gulf ports. A small craft carrying Italians was signaled near Key West, and it was thought they might be refugees.

Fourteen new cases and two deaths reported at New Orleans yesterday.

Dr. Porter has issued an order to quarantine against Atlanta. This will be very satisfactory to the people of this State, as Atlanta permits people from New Orleans to enter that city without asking any questions.

Card of Thanks.

To the Officers and Members of the Gainesville Fire Department:

We desire to publicly express our thanks and appreciation for the splendid work done by you at the fire which occurred in our gas plant on Monday morning, July 31st.

The service we consider as being equal in efficiency to that of any of the large city departments, and no doubt better, were they placed in the same position that you are. Again thanking you, we are Yours sincerely,

SENTENCED FOR STEALING.

Two Colored Boys Broke Into Fleming's Store at Archer Tuesday.

Deputy Sheriff F. S. Curl of Archer was in the city Wednesday, having come with Raymond Surtain and Jesse Benbow, two colored boys, who were convicted in Justice Chamblin's court upon a charge of larceny, and were sentenced to three months each in the county prison.

These urchins demonstrated the fact that they were shrewd as far as their rascality was concerned. They entered the store of J. T. Fleming & Son some time late in the afternoon and hid behind some boxes in a rear room, according to their story. When the store was closed, about 7 o'clock, they proceeded to ransack the cash drawer of about $5 in cash, which had been left for change, and filled up a large bag with candy, crackers, etc.

Officer Curl is one of the most efficient in the county, as was proved in this instance. The burglary occurred between 7 and 8:30 o'clock in the evening and by 8 o'clock the following morning Officer Curl had them under arrest.

The defendants weakened as soon as arrested and related the entire story. The sentence on this account was made as light as Justice Chamblin decided was conservative.

TRAXLER NEWS.

Narrow Escape From Death—Other Local Happenings.

Traxler, Aug. 2.—The crops are fine. We are in hopes of being better off another year.

Mr. Bush, while cow hunting near Dutton last Sunday, came very near losing his life, the ground giving way and his horse going down about fifteen feet. While trying to dig the horse out he was covered with dirt to his shoulders. Maybe he won't cow hunt any more soon, as that was his only horse.

Miss Mattie Miller of Edgefield, S. C., and Mrs. Joel Jennings visited the family of F. B. Dell last week.

Mrs. Joe Downing was a pleasant visitor to our thriving little burg yesterday.

Misses Ella Downing and Lizzie Bunch left Wednesday for Kissimmee, where they will teach school for the next six months. Though we regret their not being with us, we wish them much success.

Miss Kate Dell attended a Baptist union meeting at Eliam yesterday.

A party of young people from here spent a very pleasant day at Honesty Springs last Tuesday.

An Enjoyable Function.

One of the most elaborate affairs ever given in Williston was a Dinner Dance given by Mrs. J. Q. Peacock Monday night, in honor of Miss Ruth Hale and J. E. Thomson, who were married the following morning. The house was beautifully illuminated and decorated.

A turkey and salad course was served at 11 o'clock, followed by fruit punch and ice cream. The elaborate bride's cake was cut at 12 o'clock. Miss Lillian Burke was the very fortunate one to cut the ring, Miss Hale the dime, J. H. Burke the button and Mr. Williamson the thimble, who with a very pretty speech presented it to the bride-elect.

Dancing and music was enjoyed until a late hour. Seated at the table were J. C. Thomson, Miss Ruth Hale, Q. E. Peacock, Miss Hale, Mr. Walker of Bartow, Miss Mildred Hale, Robert Thomson of Dunnellon, Miss Marie Peacock, J. H. Burke, Mr. Chase of Gainesville, Miss Lillian Burke of Jacksonville, Mr. Williamson of Zellwood, Mrs. S. Alexander, Mr. and Mrs. J. Q. Peacock.

CEDAR KEY FOLKS ARE NOT WORRIED

Confident That They Will Retain Possession of Property There.

AN ATTORNEY'S PREDICAMENT

Correspondent States That Property Owner Showed Him an Abstract of Title and Warranty Deed Signed by One of Attorneys as Being Correct.

Cedar Key, Aug. 2.—The suit to quiet title brought by W. W. Hampton and W. E. Baker of Gainesville against the Cedar Key Town Company, L. B. Parsons and J. A. Williams, and which is said to involve the entire town of Cedar Key, is not causing very much excitement or worry among the people here who are interested in the suit as defendants, or as property owners who are to be sued later.

At the proper time the defendants will show that they and their grantors have held this property for upwards of thirty-five years under color of title and will produce certain proofs and documents to show that Parsons, the original locator, is the ancestor of L. B. Parsons, who now owns a considerable slice of the town, and the Cedar Key Town Company will show that its promoter, the late Senator David L. Yulee, one of the best posted real estate lawyers of his day, secured certain lands from the Parsons'.

Living witnesses will be produced who knew the original Parsons and the first settlers of Cedar Key, and who will testify that no one of the name of Pierson ever located here under the armed occupation act.

The writer was shown an abstract of title to certain property here to which is attached a certificate signed by one of the above attorneys, some years ago, and in which he certifies that the title to the property was good; also a warranty deed signed by this attorney, to a part of the property, he certified as being good and which he now seeks to overthrow. The owner of the property is wondering if the aforesaid attorney will make good his warranty and stand to his certificate, if he is successful in the present litigation.

Tired Nervous

When you feel languid, tired, nervous and irritable, your vitality is low—your supply of nerve energy exhausted, and your system running down for lack of power,

The organs of the body are working poorly, or not at all, and you are not getting the nourishment needed. This soon impoverishes the blood and instead of throwing off the impurities, distributes it all through the body. This brings disease and misery.

Feed the nerves with Dr. Miles' Nervine, a nerve food, a nerve medicine, that nourishes and strengthens the nerves, and see how quickly you will get strong and vigorous.

"My wife suffered with nervousness previous to a recent attack of typhoid fever, but after her recovery from the fever, she was much worse, and could hardly control herself being exceedingly nervous when the least excited. She was very restless at night, and never had a good night's rest. She also suffered much from nervous headache. Dr. Miles' Nervine was recommended by a friend. After the first three doses she had a good night's rest, and at the end of the first week's treatment she was wonderfully improved. Continued use of Nervine has completed her entire cure."

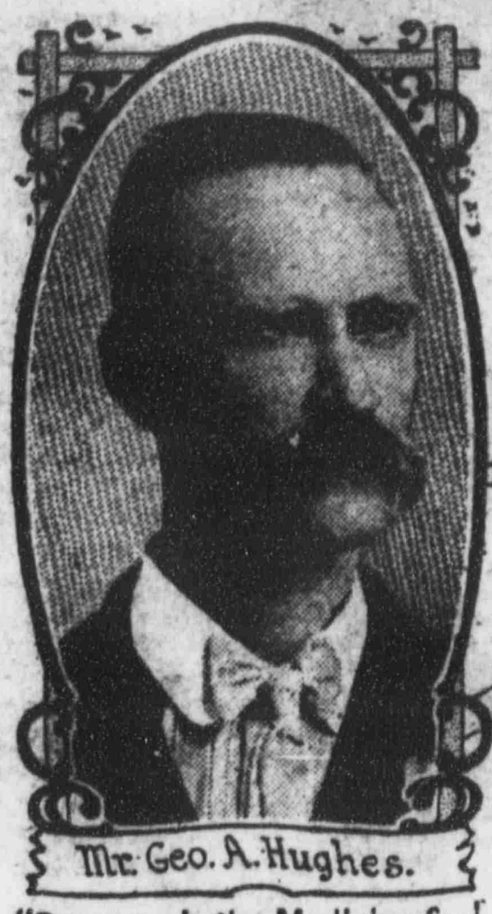
THE RICH AND THE POOR NEED PE-RU-NA.



Mr. Geo. A. Hughes.

Many Suffer With Catarrh and Don't Know It.

The Phase of Catarrh Most Prevalent in Summer is a Run Down, Worn Out Condition Known as Systemic Catarrh.

"Pe-ru-na Is the Medicine for the Poor Man."—Geo. A. Hughes.

CATARRH assumes different phases in different seasons of the year. In the early summer systemic catarrh is most prevalent.

That tired, worn-out feeling in nine cases out of ten is due to a catarrhal condition of the mucous membranes.

Mr. Geo. A. Hughes, 808 Mass. Ave., Indianapolis, Ind., writes:

"Peruna has done me more good than anything I have ever taken. I am forty-five years old now, and feel as good as I did at twenty. I was very thin and run down, but Peruna acted just right in my case. I am a carpenter and sometimes need a tonic. Peruna is the medicine for a poor man."—Geo. A. Hughes.

A Congressman Uses Pe-ru-na in His Family.

Hon. Thos. J. Henderson, Member of Congress from Illinois, and Lieutenant in the Union Army for eight years, writes from the Lemon building, Washington, D. C., as follows:

"Peruna has been used in my family with the very best results and I take pleasure in recommending your valuable remedy to my friends as a tonic and an effective cure for catarrh."—Thos. J. Henderson.

Peruna cleanses the mucous membranes and cures the catarrh wherever located.

There are no remedies for catarrh just as good as Peruna. Accept no substitutes.

Snow in Michigan July 24th, and two weeks previous people were dying of sunstroke.

Only one law has been declared unconstitutional of the acts of the last Legislature.

It is very annoying to some people to think the Legislature passed a few laws that they couldn't break.

Some people have to make a lot of noise to make themselves believe they are having a good time.—Richmond (Va.) Journal.

A man who has been trying to follow a health doctor's advice for about six months, has decided that life is not worth the living.

The Japs have now invaded Siberia. If they keep on Russia won't be able to pay any indemnity in anything but money, as they will have no territory left only the homestead.

The School of Technology to be opened at Lake City will be a grand institution for the State of Florida, as it will afford young men who desire to learn a trade to do so at the time they are securing an education.

And now they say that Bob McNamee has decided to move to Gainesville and run for the Legislature. Mac seems determined to go down in history as having represented every county in Florida in the Legislature.—The Sun, West Palm Beach.

Peoria, Ill., has six distilleries which last year paid a revenue of $34,000,000. If these distilleries were constantly running at their full capacity it would require each day 1,000 acres of corn yielding 40 bushels per acre to supply them. An average of 2,000 barrels of whiskey a day is made.

A dispatch from Tallahassee on Saturday says: "In answer to Governor Broward's request, the supreme court has declined to give an opinion on the constitutionality of the recently enacted law generally known as the Buckman educational act. The court is not authorized to pass upon the constitutionality of statutes affecting the Governor's executive duties and powers."

Havana is having her inning now and has quarantined against New Orleans and Tampa. Only a few years ago it was different, but the people of the city on the island have "got the habit," and by their cleanliness have kept the yellow terror from their shores. Their example should be followed by some of our Southern cities. It is so much cheaper to keep clean than it is to fight disease.

The Jacksonville Exposition and Pure Food Exhibit will be a grand thing for Florida. Such an exhibition should be made permanent, where many of the products of the State could be seen at all seasons of the year. An aquarium with the various kinds of fish, a zoological garden with the various kinds of game and a mineral display, would be attractive at all times. The present plan is to open the show from January 6th to 15th, 1906, but a permanent attraction would be a winner, as all people go to Jacksonville.

LUMBER GRADES.

A subject of increasing importance to every lumber producer and consumer is that of grades. That these grades should be uniform where practical is well recognized and many efforts to arrive at some general rules have been made. In view of these movements to standardize grades, the Forest Service has undertaken to bring together the specifications of the various lumber and manufacturers associations and to put them in such a form that they may be compared.

The object of the study is not to devise a system of standard grades, but to make simply such a compilation of the grades now in use as will be of service to lumber producers and consumers, though it is hoped that a great deal of information may be accumulated that will be of value in eventually preparing the way for a standard system.

It is planned to get the views of those concerned partly by interviews and largely by correspondence. A representative of the Forest Service will endeavor to visit the secretaries and members of grading bureaus of various associations and learn their views in regard to the practical workings of the various rules. A large number of mill men and manufacturers will be reached by correspondence and their views sought. It is especially desired to find the important points of difference in grades from the view points of both producer and consumer of lumber, and also to ascertain the chief difficulties in the way of devising and executing a system of standard grades

The assistance of manufacturers and consumers of lumber is earnestly desired in this work. Suggestions concerning it will be gladly received by the Office of Forest Products, Forest Service, Washington, D. C.

REAL ESTATE.

Real estate in Gainesville still continues to be active, and the prices remain firm. The location of the State University in this city has had a tendency to strengthen the market, although prices have not soared much on that account, as they were well up before that event took place and did not drop any when it was thought we would not win in the contest.

The location of Gainesville, the health of the city and the many conveniences enjoyed by our people have made it popular as a residence city, which has been the means of bringing many here to make it their permanent homes, while the Bible Conference and Chautauqua will induce many to make their winter homes here.

The disbanding of the East Florida Seminary will make some difference in the residents for a time, as members of the faculty will go to other places and new people will take their places.

There has been a steady building boom in the line of residences in the city, yet there is a scarcity of houses for rent at present, which may be relieved for a time later in the season, but only for a short interval, for when the winter visitors begin to arrive there will be enough people here to occupy all the houses and rooms that can be obtained.

There is not much danger of a decline in real estate for some time to come, and when the University gets located here and our Graded and High School placed on the University list, we will be looking for more "rooms to rent."

A FRIEND OF THE SEMINARY.

The following is from The Tavares Herald, edited by Alfred St. Clair-Abrams:

"An individual wants to know when The Herald and its editor ever took any part in the educational affairs of the State? Just ask any of the teachers or officials of the East Florida Seminary, or any of the schools of Florida what was the attitude of the editor of The Herald in the Legislature two years ago, when as a member of the Committee on Education of that body, he was at all times on the alert to advance the educational interests of the State. It is one of the proudest recollections of his term in the Florida Legislature, that his fight in the interest of education throughout the State earned for him the lasting gratitude and friendship of the educators and friends of education all over the State."

Those familiar with the attitude of Mr. St. Clair-Abrams during his legislative career, know that he was heartily in accord with every sound educational measure, and he always proved himself a true friend of the East Florida Seminary as well.

GREED THE CAUSE.

The Age-Herald of Birmingham, Ala., has the following sensible remarks regarding the conditions along the Gulf Coast and the cause of it. Greed of gain is the cause of the yellow fever outbreak, it says, and explains as follows:

"The quarantine at Galveston, New Orleans and Mobile had up to Wednesday of this week been conducted strictly on commercial, instead of public health lines. A warm rivalry has been going on over the fruit trade from the tropics. New Orleans has been losing to Mobile its grip upon that trade, and both have been permitting fruit ships to pass quarantine without much delay. It was the fruit trade, not the health of the people, that was considered, and New Orleans caught the fever germs from this unseemly and utterly unsafe strife.

"The remedy consists in placing the quarantine stations under Federal control. This has been done all along the South Atlantic Coast—in North Carolina, Georgia and Florida. For commercial reasons—fruit trade reasons—Alabama, Louisiana and Texas have refused to do away with State or municipal control.

"If Federal management of the quarantine stations on the Gulf Coast were conceded, there would be no more yellow fever in this country. A case or two might creep in, but all physicians now know how to handle the sporadic case. It is necessary to keep off by netting the stygomia, which alone can transmit the germs of the disease. But while a commercial quarantine lasts forty blocks become infected before confession is made of the presence in this country of the fever. The choice is between Federal quarantine and commercial quarantines, and New Orleans should not hesitate to adopt the former. The safety and prosperity of the Southern country, and therefore of New Orleans, demands Federal supervision of Gulf Coast quarantine stations."

FAIR BUILDINGS.

The work of erecting the State Fair buildings at Tampa, including the mammoth main exhibit building, began Monday, and will be pushed with all rapidity possible until the building is completed and ready for use. The firm to which the building contract was let was given eighty days in which to complete the work, and in case the buildings are not finished by this time the Fair Association will take the buildings in hand and complete them before the fair gates open, November 15th, at the expense of the contractor.

Heretofore one of the most serious drawbacks of fairs in general has been late opening. The directors in this case, however, are determined to have the buildings ready on time and not a detail will be lacking when the crowds are admitted on the date above mentioned.

No county can afford to go without representation at this, the greatest State Fair of the South's history.

FARMERS' INSTITUTES.

A few years ago the farmers of this county were very active in the matter of holding institutes and the plan was a good one. They should be kept up by all means and an organization maintained so that speakers could be secured and an appropriation from the State to maintain them.

The farmer is the backbone of the country and anything that will promote their welfare and carry a practical education to those who are thus engaged will be a benefit to the whole people. The matter should be looked up and dates fixed for the various counties, so that meetings could be arranged later in the season.

The Tampa Tribune says the law prohibiting baseball and bowling games on Sunday was enacted by "Rube" legislators. Following are the names of the senators who voted for the bill on its final passage: Mr. President Trammell, Adams, Bailey, Baskin, Canova, Clarke, Crews, Crill, Davis, Faulkner, Gillen, Hudson, Humphries, Jackson, Lee, McCreary, Mamey, Neel, Newlan, Sams, Wilson—21. Of these six are lawyers, three bankers, four farmers, three merchants, two editors, one phosphate miner, one hotel proprietor and one pilot.

The mosquito is said to carry disease. It also carries enough music to awaken some people from slumber. If you hear a man cussing all alone in the dead of the night you can make up your mind that Amos Quito is after his blood.

A WOMAN'S ORDEAL

DREADS DOCTOR'S QUESTIONS

Thousands Write to Mrs. Pinkham, Lynn, Mass., and Receive Valuable Advice Absolutely Confidential and Free

There can be no more terrible ordeal to a delicate, sensitive, refined woman than to be obliged to answer certain questions in regard to her private ills, even when those questions are asked by her family physician, and many

continue to suffer rather than submit to examinations which so many physicians propose in order to intelligently treat the disease; and this is the reason why so many physicians fail to cure female disease.

This is also the reason why thousands upon thousands of women are corresponding with Mrs. Pinkham, at Lynn, Mass. To her they can confide every detail of their illness, and from her great knowledge, obtained from years of experience in treating female ills, Mrs. Pinkham can advise women more wisely than the local physician.

Read how Mrs. Pinkham helped Mrs. T. C. Willadsen, of Manning, Ia. She writes:

Dear Mrs. Pinkham:—

"I can truly say that you have saved my life, and I cannot express my gratitude in words. Before I wrote to you telling you how I felt, I had doctored for over two years steady, and spent lots of money in medicines besides, but it all failed to do me any good. I had female trouble and would daily have fainting spells, backache, bearing-down pains, and my monthly periods were very irregular and finally ceased. I wrote to you for your advice and received a letter full of instructions just what to do, and also commenced to take Lydia E. Pinkham's Vegetable Compound, and I have been restored to perfect health. Had it not been for you I would have been in my grave to-day."

Mountains of proof establish the fact that no medicine in the world equals Lydia E. Pinkham's Vegetable Compound for restoring women's health.

The Jim Crow law, which was declared unconstitutional, was framed by an eminent lawyer of Pensacola, and the amendments were submitted by one of the ablest constitutional lawyers of the State. This is the only act of the last legislative session that has been knocked out, and the farmers in that body had no hand in framing the measure. The assertions that the "rubes" and "hayseeds" are to blame for such laws are in bad taste, and in many instances are simply published as fillers in the absence of the letter from Washington.

Governor LaFollette of Wisconsin is lecturing at numerous chautauquas throughout the country. His subject is "The World's Greatest Tragedy." Of course the people who know how the Governor has been battling with the monopolies of the country go to the lecture with the expectation of hearing something regarding the many wrongs the people are now enduring, but are surprised when they ascertain that the speaker delivers a very careful and scholarly address on the Shakespearian tragedy of "Hamlet."

Some people are afraid that the school at Lake City will be a damage to the State University. There need be no fear along this line, for the University, with its departments of law, medicine and literature, will draw the students who are searching for an education along such lines, while the school at Lake City will draw students who want to learn trades and study mechanics. The university at Gainesville will have the support of the press and people of the State, and the press of the State is its staunchest friend.

There is to be an investigation in regard to the explosion of the boiler on the gunboat Bennington. This certainly must be a mere matter of form, as the boilers of the Bennington were known to be of a very weak make and were considered dangerous, yet they were permitted to be used when those in charge expected something of the sort to happen at any moment.

With the same diligence that has marked their efforts for the past few years, the Republican administration will soon have the treasury in such shape that it will not have enough in it to make a good rattle.

Occasionally the man who "butts in" gets "botted." If you can't stand a shock don't take hold of the handles.

According to reports, the old adage about the "long lane" comes true in the case of Senator Mitchell of Oregon, who has been given a five years' sentence for land frauds. He deserted his wife and three children in Pennsylvania when he went West some years ago and married another woman. Justice has at last overtaken him.

The police of New York found a map with four wedding rings in his pocket. They followed him to the hotel, and when he registered from Utah, there was a cheap looking lot of bluecoats.

It may come to such a pass that the inmates of the Chattahoochee asylum will have to look after the attendants.

The trouble with the free thinker is that he wants to do all the thinking and not give the other fellow a show.

Russell Sage will enter upon his ninetieth year next Friday.

BUILDINGS WILL BE FINE

Will be Among the Latest and Most Modern in the South—Plans and Specifications to be Presented to Board August 14th for Approval.

This looks like business, notwithstanding some efforts to prove the Buckman educational bill unconstitutional.

Greenville Temple Snelling of New York, member of the firm of Snelling & Potter, architects and engineers, has arrived in the city. Mr. Snelling has been appointed by the Board of Control and the State Board of Education to make plans and specifications of the proposed University of Florida buildings, to be located here, and will proceed at once with the work, having same ready for submitting to the joint board at the meeting to be held August 14. It is the purpose of Mr. Snelling to submit for the consideration and approval of the board plans for the most up-to-date University buildings in the South, and the same will no doubt be accepted.

The Summer Normal, which is being conducted under the auspices of the University of Florida, is meeting with excellent success, both as regards enrollment and the efficiency of its teachers. The enrollment of the Normal will now reach in the neighborhood of seventy, which is indeed remarkable, considering that this is the first year of the institution. Other students are expected soon.

ELDER RAWLINGS IS GUILTY.

Declares Judy in Famous Murder Trial Now Ended.

Valdosta, Ga., August 1—The jury in the trial of J. G. Rawlings brought in a verdict of guilty without recommendation. The prisoner, his wife and daughters, who had remained by his side, received the verdict without emotion.

The conviction of J. G. Rawlings, the father of Jesse, Milton and Leonard Rawlings, whose convictions had previously removes the entire male element of the family, should the juries stand.

The three sons and the negro, Alf Clyatt, were accused of killing the Lankford children, and the father, J. G. Rawlings, was accused and convicted of instigating one of the most horrible crimes that has been recorded in the history of Georgia.

The convicted men received a recommendation to mercy, and under the laws of the state, their sentence necessarily must be death on the scaffold.

The Sons, Leonard, will receive a life sentence in the penitentiary provided, of course, that sentence is passed upon the men. Seldom have so many faced the extreme penalty for the same crime, and the case throughout Georgia and the country has been a deep.

UNION CARPENTERS ARE ON STRIKE

They Want a Nine-Hour Day on Same Pay as Heretofore.

THEY ARE PAID POOR WAGES

So They Claim, in Comparison to Other Points, and Are Determined to Gain Their Point or Seek Occupation in Other Cities.

According to promise, the carpenters and joiners of this city have gone out on a strike.

The mechanics in this line warned their employers long ago that they would go on strike August 1, if the work hours were not reduced from ten to nine at the same pay. The employers paid no heed to this warning, with the result that a general strike among the union carpenters went into effect on the morning of the 1st.

The carpenters claim that they are the poorest paid of any in the State, considering the time they are required to work, and are determined to put in fewer hours by one on the same salaries they have been drawing.

A good carpenter, it is said, is paid from $1.75 to $2 a day here, for ten hours' work, when he should receive, according to the scale elsewhere, from $2 to $2.50 for the same service. The carpenters say they are tired of this discrimination, and will get the salary they are worth or hunt some other locality.

This does not apply only to contractors, but to all who are employing carpenters in the city. Many houses are being erected on what is known as day labor, the owners of the building employing carpenters on the work. These carpenters also went out on a strike, and say they will not return to work until the concession of nine hours is granted.

Two or three contractors in the city are having no trouble as they voluntarily reduced the time to nine hours several weeks ago. The men employed by these contractors are working right along, and no trouble is anticipated in this direction.

The strike coming just at a time when building is brisk in Gainesville, may work a hardship on contractors if the matter is not settled.

CARD FROM MR. ROGERS.

Tells of the Condition of His Little Son, Malbra, at Tallahassee.

Editor Sun: I haven't time to write to every one who may inquire as to the result of the sad accident which happened to my little boy at this place on the 28th ult.

I will say the statement in your paper of Sunday was correct. The extent of his injuries are scarcely known to us yet. Both front and back wheels of a very heavy wagon loaded with people ran over his little body, passing diagonally across him from the lower part of the left side to the shoulder of the right, crushing the right shoulder bones and displacing some others. The extent of his internal injuries we cannot tell. His temperature is running about 108 and he is very restless at this writing. We are hopeful of him.

S. B. ROGERS.

Tallahassee, August 1.

CHURCH WAS DEMOLISHED.

Frame of Mount Olive Church Completely Wrecked Monday.

As the week draws nearer to a close The Sun hears of other calamities from the effect of the electrical and wind storm of Monday afternoon. The latest report is the complete destruction of the frame work of Mount Olive Church, colored, Springfield, and those who have seen it declare it was wrecked beyond repair.

The church was under course of erection and the loss at this time will be heavy to the little congregation who have worked hard and faithfully to accomplish what had already been done. It is understood, however, that an effort will be made to rebuild at once.
